

Vertical and Adjacent Angles

Angles formed opposite from each other when two lines intersect. They are **ALWAYS** congruent!

Angles that have a common _____ and common _____.

Label each of the following as vertical, or adjacent.

Knowing that these angles are vertical, what are the measures of x and y ?

$$x =$$

$$y =$$

Angle 1 = 40
Angle 2 = $2x + 10$

What is the value of x ?

What is the value of x ?

Notes - Vertical and Adjacent Angles.notebook

What is the value of x ?

What is the value of x ?

What is the value of x ?

What is the value of x ?

7+ Only:

Solve for x :

Find the measurement of the angle:
